/src/Search.h

```
graph BT; A["/home/ana/Dropbox/faculdade<br/>/2ano/2semestre/CAL/SmartWaste<br/>/src/Search.cpp"] --> B["/home/ana/Dropbox/faculdade<br/>/2ano/2semestre/CAL/SmartWaste<br/>/src/Search.h"]; C["/home/ana/Dropbox/faculdade<br/>/2ano/2semestre/CAL/SmartWaste<br/>/src/SmartWaste.cpp"] --> B;
```

The diagram illustrates a file dependency structure. At the top is a gray box representing a header file: `/home/ana/Dropbox/faculdade/2ano/2semestre/CAL/SmartWaste/src/Search.h`. Below it are two white boxes representing source files. The left box is `/home/ana/Dropbox/faculdade/2ano/2semestre/CAL/SmartWaste/src/Search.cpp` and the right box is `/home/ana/Dropbox/faculdade/2ano/2semestre/CAL/SmartWaste/src/SmartWaste.cpp`. Blue arrows point from each source file box up to the header file box, indicating that both source files include or depend on the header file.
